Work Experience

Jr. Web Developer

Answers in Genesis - Petersburg, KY

August 2020 to Present

- Responsible for maintaining all JavaScript/jQuery/Vue.js code
- Replaced all of our usage of jQueryUI with newer, more reliable jQuery/JS plugins
- Updated our jQuery code from version 3.0 to 3.5.1, the latest version.
- Responsible for Python/Django projects from time to time
- Utilized Python, Django, and API's to switch our site search backend from our old solution to Google, while still keeping the same look and feel in our site search.

Publicity Coordinator & Intern

Created Equal - Columbus, OH

April 2020 to July 2020

April - May (Publicity Coordinator):

- Ran the director's social media accounts and coordinated guests for his podcast

June - July (Intern):

- Learned in classroom setting, completed assignments as required
- Did outreach on the streets

Jr. Web Developer

Answers in Genesis - Petersburg, KY

August 2019 to March 2020

- Worked as a Web Development Intern from August until November
- Promoted to Jr. Web Developer in November.
- Improved and maintained a program that exported an InDesign file to our custom HTML, CSS, and JavaScript format for our Sunday School Curriculum.
- Built multiple jQuery plugins for use in our sites.
